

72W UV-C Tripod mounted unit with Remote Control Plug

UVDS0006-P

A powerful 72W unit it come complete with a remote control for on /off. The Sterilon C lights are European manufactured using Philips UV-C lamps. They have a Sturdy clinical white plastic case and the tripod is light weight but incredibly robust. The remote control sits in between the 3 pin plug and the socket whilst we work with the factory to get it built in to the unit for the future. The units can be ceiling or wall mounted but are ideal for tripod mount making them highly portable.

Benefits

- 72W Rapid disinfection time.
- Air and surface treatment of contaminants.
