

30W Air Conditioner UV Lamp

CK30

Air conditioning systems are typically hard to get to and form a breeding ground for mould, bacteria, even slime, the spores from which can circulate through the entire building. These contaminants can cause allergies, asthma, colds, flu and sinus infections. The CK30 easily plugs into your central air system and is a safe, economical and effective way to significantly reduce airborne contaminants.

Benefits

- Kills 99% of Pathogens
- Long Lifetime
- Easy to install
- Ozone free

Applications

- Hotel, Commercial, Household
- Meeting rooms
- Waiting Rooms
- Reception areas
- Care Homes, Schools, Gyms and Offices

Features

- 30W Compared to a Competitor's 5W
- UVC Intensity 6 x Main Competitor's
- Airflow sensor
- Proprietary octagonal design
- Suitable for all air handling systems

Safety

- CE, RoHS, FCC Certification
- Automatic Fault Alarm Function
- Fully Encased UVC Filtration

UVDS CK30

Approval	CE Marked
Technology	UV Technology
Lifetime	12,000h
Wavelength	253.7nm
UV intensity	50,000uw/cm2
Voltage	90-264 V
Total Rated Power	30W
Tube quantity	2pcs
Tube Size	L*D:250*17mm
